

St. Michael-Albertville Schools

Art Curriculum

Philosophy

Visual Arts maintain a rich body of knowledge that enables students to understand their world and its cultures. Visual Arts develop critical thinking, original ideas, and creative problem solving. Visual Arts provide a unique and powerful language in which students engage in artist practice by creating, responding, presenting, and connecting while cultivating their personal voice.

K-12 Learning Targets

I can...

- Create artwork that expresses an idea and demonstrates learning.
- Create a collection of artwork.
- Read, reflect, revise, and analyze artwork based on feedback.
- Find and generate original artistic ideas.
- Understand and appreciate art and art history.
