

Plan your child's COVID-19 Vaccination

Be Ready, Minnesota. Kids Deserve A Shot.

Children ages 5-11 are eligible to receive the Pfizer COVID-19 vaccine for 5-11-year olds.

Make a plan to take your child to get vaccinated.

STEP 1:

Learn about how the vaccine is safe and provides critical protection against COVID-19.

- Speak with your pediatrician, family medicine provider, or a trusted health professional.
- Visit the state's new web page on COVID-19 vaccines for children and teens: mn.gov/vaxforkids.
- Visit the Centers for Disease Control and Prevention website: <https://www.cdc.gov/coronavirus/2019-ncov/vaccines/recommendations/adolescents.html>

STEP 2:

Find a vaccination location and make an appointment.

- Check with your pediatrician or family medicine clinic about appointments.
- Visit mn.gov/vaxforkids to find and contact providers or pharmacies near you.
- Watch for vaccination clinics being offered at schools or other community locations around Minnesota.

STEP 3:

Bring your child to get vaccinated

- Accompany your child to the appointment.
- Walk in with your child at locations accepting drop-ins.
- Bring the whole family to get vaccinated!
- Get your CDC vaccination card at the first appointment and bring it to the next one.

THE FACTS

- The vaccine is safe for children ages 5-11.
- The vaccine protects children and families from COVID-19.
- The vaccine is free.
