

PARENTS OF DISTANCE LEARNING STUDENTS

www.stma.k12.mn.us/

DO

ENCOURAGE

Please continue to encourage your child to try their best in all academic areas every day.

HELP WITH ASSIGNMENTS

Please continue to help your child with any assignments if the teacher is unavailable. This support will allow them to continue their learning

ASSIST WITH TECHNOLOGY

Please continue to assist your child with any technology questions/problems that arise.

MAKE SCHOOL A PRIORITY

Please help your child create a morning routine that has your child ready to learn. This also includes creating a work space free from clutter and distractions

HELP WITH ASSESSMENTS

Assessments are specifically designed to help teachers identify and address learning gaps. When parents help their child with an assessment they are unintentionally taking away from their learning.

BE VISIBLE

While it is okay to be near your child to help with any technology or support they may need, parents, siblings or pets that become visible or audible during a live lesson can be distracting to other students.

**DO
NOT**
