

No Shots No School Initiative

The goal of the No Shots No School initiative is to have all children immunized on the first day of school. If you do not have a health care provider, you cannot get an appointment with your healthcare provider before school starts or you do not have insurance; you can make an immunization-only appointment with one of the participating clinics (in most cases, on the day you call). Your child can receive the required immunizations without a physician visit or preventive care exam and without direct charge to you. If you have insurance and your insurance covers immunizations, the clinic will bill your insurance. If you do not have insurance or your insurance does not cover immunizations, there will be no charge.

The participating clinics in the St. Michael – Albertville area are:

<u>Clinic</u>	<u>Hours</u>	<u>Phone</u>
