

# Flat Panel Smart Board Basics

1. Sign in to the computer and bring up the documents you want to mirror.
2. Power on the smartboard using the large top power button on the panel on the right side of the board.
3. The board will open to a blue screen with boxes. on the bottom of the screen will be an input option. Tap input.

4. This will open 4 boxes on a black screen where you will see the computer screen as one of the boxes. Tap the Computer screen image.

5. From here it will function as a regular smartboard as the teacher is accustomed to.
